12.2 Students analyze the elements of America's market economy in a global setting.

3. Explain the roles of property rights, competition, and profit in a market economy.
8. Explain the role of profit as the incentive to entrepreneurs in a market economy.

The Role of Sole Proprietorships

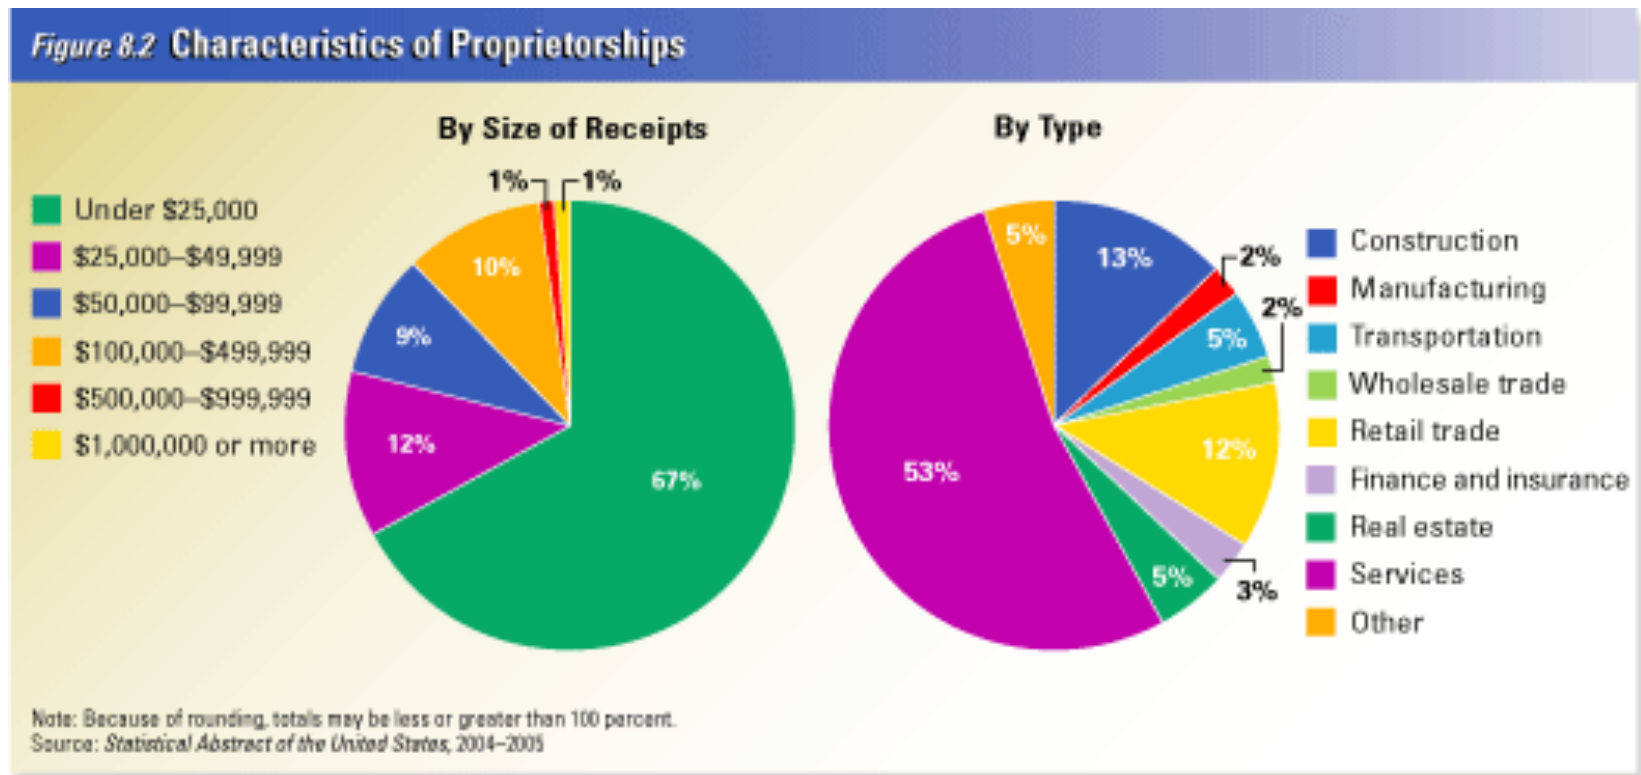

A **sole proprietorship** is a business owned and managed by a single individual.

- A **business organization** is an establishment formed to carry on commercial enterprise. **Sole proprietorships are the most common form of business organization.**
- Most sole proprietorships are small. All together, sole proprietorships generate only about 6 percent of all United States sales.

Characteristics of Proprietorships

- Most sole proprietorships earn modest incomes.
- Many proprietors run their businesses part-time.

Advantages of Sole Proprietorships

Sole proprietorships offer their owners many advantages:

Ease of Start-Up

- With a small amount of paperwork and legal expenses, just about anyone can start a sole proprietorship.

Relatively Few Regulations

- A sole proprietorship is the least-regulated form of business organization.

Sole Receiver of Profit

- After paying taxes, the owner of a sole proprietorship keeps all the profits.

Full Control

- Owners of sole proprietorships can run their businesses as they wish.

Easy to Discontinue

- Besides paying off legal obligations, such as taxes and debt, no other legal obligations need to be met to stop doing business.

Disadvantages of Sole Proprietorships

The biggest disadvantage of sole proprietorships is unlimited personal liability. **Liability** is the legally bound obligation to pay debts.

- Sole proprietorships have limited access to resources, such as physical capital. Human capital can also be limited, because no one knows everything.
- Sole proprietorships also lack permanence. Whenever an owner closes shop due to illness, retirement, or any other reason, the business ceases to exist.

Types of Partnerships

Partnerships fall into three categories:

- **General Partnership**
 - In a **general partnership**, partners share equally in both responsibility and liability.
- **Limited Partnership**
 - In a **limited partnership**, only one partner is required to be a general partner, or to have unlimited personal liability for the firm.
- **Limited Liability Partnership**
 - A newer type of partnership is the **limited liability partnership**. In this form, all partners are limited partners.

Advantages of Partnerships

- **Partnerships offer entrepreneurs many benefits.**

1. Ease of Start-Up

Partnerships are easy to establish. There is no required partnership agreement, but it is recommended that partners develop **articles of partnership**.

2. Shared Decision Making and Specialization

In a successful partnership, each partner brings different strengths and skills to the business.

3. Larger Pool of Capital

Each partner's **assets**, or money and other valuables, improve the firm's ability to borrow funds for operations or expansion.

4. Taxation

Individual partners are subject to taxes, but the business itself does not have to pay taxes.

Disadvantages of Partnerships

- **Unless the partnership is a limited liability partnership, at least one partner has unlimited liability.**
- **General partners are bound by each other's actions.**
- **Partnerships also have the potential for conflict. Partners need to ensure that they agree about work habits, goals, management styles, ethics, and general business philosophies.**

Types of Corporations

- A **corporation** is a legal entity, or being, owned by individual stockholders.
- **Stocks**, or shares, represent a stockholder's portion of ownership of a corporation.
- A corporation which issues stock to a limited number of people is known as a **closely held corporation**.
- A **publicly held corporation**, buys and sells its stock on the open market.
 - **Google, IBM, Apple, Coca Cola, Wal-Mart**

Advantages of Incorporation

Advantages for the Stockholders

- Individual investors do not carry responsibility for the corporation's actions.
- Shares of stock are transferable, which means that stockholders can sell their stock to others for money.

Advantages for the Corporation

- Corporations have potential for more growth than other business forms.
- Corporations can borrow money by selling **bonds**.
- Corporations can hire the best available labor to create and market the best services or goods possible.
- Corporations have long lives.

Disadvantages of Incorporation

- **Publicly Held Corporations are not without their disadvantages, including:**

Difficulty and Expense of Start-Up

Corporate charters can be expensive and time consuming to establish. A state license, known as a **certificate of incorporation**, must be obtained.

Double Taxation

Corporations must pay taxes on their income. Owners also pay taxes on **dividends**, or the portion of the corporate profits paid to them.

Loss of Control

Managers and boards of directors, not owners, manage corporations.

More Regulation

Corporations face more regulations than other kinds of business organizations.

Corporate Combinations

- **Horizontal mergers** combine two or more firms competing in the same market with the same good or service.
 - Lucky & Albertsons
- **Vertical mergers** combine two or more firms involved in different stages of producing similar goods or services.
 - Google buys YouTube for \$1.65B
- A **conglomerate** is a business combination merging more than three businesses that make unrelated products.
 - Berkshire-Hathaway - owns Geico, Net Jets and SEE' s Candies
 - CEO & President is Warren Buffett
 - Worth \$37 Billion
 - 2nd Richest man on Earth
